Secrets to Drawing Realistic Faces by Carrie Stuart Parks

One of the best guides to drawing I ever read. I still use it when I'm in the masochistic mood to draw realistic people, and from this guide I can actually draw them! Sort of.. The only problem I have with this book is that I wish it would have gone more in depth with: Children, hair and shading hair.. Other than that it covers everything from noses to eyes to shadows and highlights.. A must-read.
