

SHADE DRY PLANTS

RELATED BOOK :

Best Plants for Dry Shade The Spruce

Foxglove is known for its showy floral display. It is also one of the tallest plants for dry shade. But do not grow foxglove around small children: It is quite poisonous. It tolerates light shade (dappled is best), but it can also be grown in full sun in the cooler climates.

Plants for Dry Shade

Very dry shade tolerant and resistant to deer and rabbits, plus the occasional football or foot. Often used at the front of borders and complementing other flowering perennials (it looks stunning when planted with Geranium 'Rozanne'), Alchemilla can also be used most effectively to create an area of differing foliage colours and textures - it combines beautifully with small to medium sized ferns.

Plants for Dry Shade HorticultureHorticulture

It can be difficult to get plants to grow around deciduous or evergreen trees. The trees throw much shade and prevent rainfall from soaking the ground beneath them. Their roots quickly absorb whatever moisture manages to make it to the soil, outcompeting whatever you ve planted there. Luckily
