Short term loan interest rates research and statistics in

What are short term loan interest rates? The APR for short term loans is often much higher than that of normal bank financing. On average, short term loans have an APR of around 400%. The APR typically ranges from about 390% to 780%. For credit cards and personal loans with standard banks, the APR is a lot lower. For example, the national average APR for credit cards is around 15%.
