Das Silmarillion erzählt die Götter- und Heldensagen Mittelirdes von der Erschaffung der Welt bis zum Beginn des Dritten Zeitalters, in dem die Hobbits leben. Das Silmarillion erzählt von den Ereignissen des Ersten Zeitalters - jener fernen Epoche von Mittelirden, auf welche die Helden des Herrn der Ringe immer wieder in Ehrfurcht zurückblicken.

Tolkien began to revise The Silmarillion, but soon turned to the sequel, which became The Lord of the Rings. He renewed work on The Silmarillion after completing The Lord of the Rings, and he greatly desired to publish the two works together.

The Silmarillion Goodreads Share book

The Silmarillion is difficult to read and I don't think it is even meant to be read straight through like a novel. Another reviewer put it best when he said "The Silmarillion is like the Bible, it's the Bible of Middle Earth". It's the magical setting of The Hobbit and The Lord of the Rings and it tells the history of the place, the inhabitants, the languages, and the legends that came before Bilbo and Frodo. For you Ring fanatics, you haven't finished the story until you've read the history.

The Silmarillion is Tolkien's first book and his last. Long preceding in its origins The Lord of the Rings, it is the story of the First Age of Tolkien's world, the ancient drama to which characters in The Lord of the Rings look back, and in which some of them, such as Elrond and Galadriel, took part.
