Pleated Skirt Sewing Pattern Tutorial Sew Guide

Each skirt piece should be of width = $A * 3 + 1$; You need 2 such pieces for the front and back. Length of each skirt piece would be the total length you need for the skirt minus 5 inches (i.e minus 7 inches for yoke plus 2 inches for hem and seam allowance) Hem the skirt pieces by turning under the bottom edge twice and stitching. Ensure that both the pieces end up with the same height. You can join the two fabric pieces now or after pleating.
