Thinking Fast and Slow by Daniel Kahneman
Thinking, Fast and Slow is just okay. It's being marketed as a book on psychology (and economic psychology, in particular) for the layperson. I'm not sure if other laypeople agree, but this wasn't really for me. And it's not that the prose is too technical (okay, sometimes it is) but rather that Kahneman is stuck somewhere between academic technicalities and clear expressive prose.
