The Bladerunner by Alan E Nourse Goodreads

This was a great book - nothing to do with the movie, but good nonetheless. It felt a lot like 2030 by Albert Brooks. The main difference is when Nourse wrote the book it was a pretty far-fetched notion - now, not so much. If you like scifi and political commentary you'll dig this book.

I watched the movie and loved it. I read the book and I was a little bit disappointed but, I still liked it. I liked the setting and the struggle that the main character was going through. I thought the book got a little dull in the middle. If the middle had more action in it, The Blade Runner would get 5 stars from me.
