

[THE BOOK GOOD TO GREAT](#)

RELATED BOOK :

Good to Great Why Some Companies Make the Leap And

Peppered with dozens of stories and examples from the great and not so great, the book offers a well-reasoned road map to excellence that any organization would do well to consider. Like Built to Last, Good to Great is one of those books that managers and CEOs will be reading and rereading for years to come.

Good to Great Wikipedia

After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. Collins finds the main reason certain companies become great is they narrowly focus the company's resources on their field of key competence.

Book Summary Good to Great by Jim Collins

Good is the Enemy of Great. The book is about being great, not merely good. Good is the enemy of great. Many people and companies settle for good because it's easier. Many companies don't even try to be great. There're not striving to be the best in the industry. This opens the door to competitors. Being the best means there is absolutely no room for mediocre thinking. It's the same in our lives. Few people lead great lives. This is because they're happy with living a good life.
