The Case for a Creator is more scientific and compelling than mainstream science has led everyone to believe. Be prepared to face facts that undermine the arguments for atheism and agnosticism. Having faith is easy when facts back up your argument but acting on that faith takes everything you can possibly give. Jesus gave His all for all of humanity and now it's our turn to give back to Him by studying and reflecting on the proof of creation that surrounds us.

There is no discussion of the "intelligent design" movement in secular science. There is no purely secular source that is analyzed to show the plausibility of theistic creation (they do exist). A weak book that, in my opinion, hurts the case for a Creator for any skeptics that may read it.
