### Cloud Atlas by David Mitchell Goodreads Share book

This book proves David Mitchell can be any writer he chooses. The six novellas that comprise Cloud Atlas are forgeries - and they are original. Each adopts the voice of a distinct author. The whole is greater than the sum of its parts, but all of the parts are superb.

### The Cloud Atlas by Liam Callanan Goodreads

I've apparently read the wrong book -- my cello teacher had mentioned "Cloud Atlas" (in hindsight, not "THE Cloud Atlas") to me as a book he was interested in, but he didn't know the author's name off the top of his head. I thought this was the book, but I was wrong. :) Still, I read this book anyway because the subject matter seemed interesting.

### Review Cloud Atlas by David Mitchell Books The Guardian

Cloud Atlas asks the simple questions of our own time, which has a Darwinian vision. A missionary explains to Adam Ewing, son of the American revolution, his idea of a "ladder of civilisation" that will extinguish those races unable to join progress. Zachry's tribesmen believe Sonmi was "birthed by a god o' Smart named Darwin".
