### **The Economic Collapse**

When economic activity is booming, demand for commodities such as oil, copper and lumber goes up and that generally causes prices to rise. But when economic activity is slowing down, demand for such commodities falls and that generally causes prices to decline. In recent weeks, we have witnessed a decline in commodity prices unlike anything that we have witnessed in years, and many are concerned that this is a very clear indication that hard times are ahead for the global economy.

### **The Coming Economic Collapse Goodreads Share book**

This is the strangest investment book I've ever read. The authors spend about 170 pages (out of 196) explaining why the economy may collapse. The premise is that Peak Oil Theory is correct, that the supply of cheap oil is dwindling, and as a result, society as we know it may change drastically.
