### **Books on Parenting Gifted Children Verywell Family**

This book by Sylvia Rimm is another beginner's guide, but with more depth than You Know Your Child is Gifted When. It covers issues of gifted children at home, such as sibling rivalry and relationships with the extended family as well issues at school, such as testing and homework. It also covers other issues, such as perfectionism and peer pressure. It can't cover the issues of gifted children extensively, but it is a good place for parents to start understanding their gifted children.

### **Top 10 Books for Gifted Children Verywell Family**

Gifted children as young as three will enjoy this book, especially those number lovers! The book consists of several vignettes, each on a different math topic. The stories have titles like "Penrose meets Fibonacci Rabbit" and "Penrose discovers the mathematics of soap bubbles." The stories are short and end with a problem or activity based on the story's topic. School-age kids who don't like math may find that they actually like it and may finally understand why they need to learn it.
