The Infested Mind Psychology Today

Them! And Us. Where did we learn to be frightened by hockey masks and chainsaws? The movies, of course. And films have promoted a fear of insects, from giant ants to brain-boring antlions.

The Infested Mind Hrbuch Download Jeffrey Lockwood

The human reaction to insects is neither purely biological nor simply cultural. And no one reacts to insects with indifference. Insects frighten, disgust, and fascinate us.

The Infested Mind WIRED

It s not easy being an entomologist. First, you have to explain what an entomologist is. Then, once people find out you specialize in insects, one of two things inevitably happens: Reaction 1

The Infested Mind Why Humans Fear Loathe and Love

The Infested Mind is an examination of what scientists, philosophers, and writers have learned about the human-insect relationship. Jeffrey Lockwood is an entomologist himself and yet still experiences bouts of entomophobia; in fact, his seemingly paradoxical response to certain insects and scenarios is what prompted him to write this book.
