Is my review of a novel composed entirely of questions itself going to be composed entirely of questions? What do you think? What is this novel composed entirely of questions about?

### **The Interrogative Mood A Novel The Cynthia Cannell**

THE INTERROGATIVE MOOD is Powell's playful and profound response, a bebop solo of a book in which every sentence is a question. ### **The Interrogative Mood A Novel by Padgett Powell**

The Interrogative Mood demands to be read deliberately, for it is courageous and entertaining and interested in the essential mysteries of self and society. Powell, with his outsize romanticism and urge only to connect, shows that it is through questions rather than answers that truth can, however fleetingly, be glimpsed.

### **Metamodernism in Padgett Powell's 'The Interrogative Mood**

In Claire Dudman's post The Interrogative Mood: A Novel? by Padgett Powell on her blog, Keeper of the Snails, she responds to The Interrogative Mood in the format of interrogation. It could be argued that Dudman's questions are aimed, exclusively, at Powell himself. However, when considered in the context of Metamodernism, where there is constant oscillation between the death and rebirth
