The Jazz Theory Book by Mark Levine Sher Music Co

There's a Mark Levine book called The Jazz Theory Book. I would suggest getting it and doing two pages a day just to study it and learn to read some basic piano, even if you can only pick out one note at a time. As you work through it you'll notice the way you hear and the way you sing will automatically start to change.

The Jazz Theory Book Mark Levine Google Books

Should be on the required reading list for any music student majoring in theory and composition. It will totally change the way you look at music theory - and bring it into the realm of usefulness in real time. I have read other Jazz theory books - and most of them read like a darned math textbook. Not this one.
