RELATED BOOK :

Popular Little Black Dress Books Goodreads

As I stood in front of the mirror in the beautiful little black dress, I knew that I was looking at a woman whom I would never see again. I wished I had never seen her in the first place, but the truth is she had always been there.

Famous Frocks the Little Black Dress Patterns for 20

if black is not your thing, there are variations for each dress in another color way and a twist on the original black dress. Overall, this book is a great addition to your sewing library. The projects are presented beautifully, and who would have thought so many ideas and variations could come from a book on black dresses! On last thing I love about this book, the large card board binding allows the book to lay flat on your sewing table as you are working on your dress.

Little Black Dress by Susan McBride Goodreads

I really enjoyed "Little Black Dress" by Susan McBride. It was a quick, page-turning read. This story is about three women, two sisters and a daughter, and a little black dress. Each chapter alternates between Evie and Toni's point-of-view. Evie's point-of-view takes place during the 1960s, while Toni's is current day.

Summary and reviews of Little Black Dress by Susan McBride

Like the characters in the book, I was drawn into the mystery of the little black dress and I thoroughly enjoyed myself. The magic of the dress mixed with the good and the bad in the characters along with the satisfying ending reminds me of a modern day fairy tale. If you like reading a good story that calls you back when you put it down, I highly recommend "Little Black Dress".
