

[THE LITTLE BOOK OF WHITTLING](#)

RELATED BOOK :

The Little Book of Whittling by Chris Lubkemann Goodreads

Loved this book! This was so informational and fun to read. I found the first half about carving utensils very informational. the second half I wasn't too crazy about but I still enjoyed it! The author clearly loves what he does and is very talented. I highly recommend this book for any person who is interested in wood carving and whittling.

The Little Book of Whittling Passing Time on the Trail

Lubkemann's book is a great resource for not only teaching the skill of whittling, but also it offers snippets of outdoorsman and woodlore knowledge covering a very broad range of topics - reminiscent of the Boy Scout Handbook or Field Book of years ago.

The Little Book of Whittling Passing Time on the trail

I've decided to take up whittling as a hobby and choose this book to read because it was suggested by a blog. It is a good book with a few beginner projects, but it isn't the right book for me. Most projects in the book are based on pieces of wood found with the bark still on. I am currently using precut pieces.

The Little Book of Whittling Gifts Gadgets Qwerkity

The Little Book of Whittling and the whittling knives that one of my offspring found on your site proved a real cracker amuses me for hours. Understandably, I have since ensured that all in the family now know of your site and am really looking forward to Christmas this year (can see it being useful for my shopping too).

The Little Book of Whittling Passing Time on the Trail

This book has a tiny font that does not respond to nook color settings to make larger. Too bad because it looks like a good book on the subject. I just cant read it.
