The Lost Daniel Mendelsohn

The Lost is a terrifying reminder of the struggle that keeps being waged by people throughout history to safeguard from extinction the memories of some life and some great injustice before they are plunged into darkness. Like some mythical hero who pays a visit to that realm of shadows the Greeks called the underworld, Mendelsohn has brought back stories of the dead that we are not likely to forget long after we close his book.

The Lost by Daniel Mendelsohn 2007 08 21 Amazon de

I read The Lost: A Search for Six of Six Million by Daniel Mendelsohn a few years after it was first published in 2006. It was a very powerful book. I learned quite a bit. It was the kind of book that stayed with you. When Audiobook Jukebox offered a copy of the audiobook narrated by Bronson Pinchot, i requested it. It had been years since I read the book so I would refamiliarize myself with the story while enjoying the narration of Bronson Pinchot. It did not quite work out as planned.
