The Myths of Greece and Rome by H I ne A Guerber

A fantastic collection of Greek and Roman myths and legends - If your're interested in Homer's or Virgil's but are unsure if you want to read them in their entirety then this book gives you the short versions of all their classic epics. I enjoyed the book and I especially like how's it written and paced, with the main chapters then sub-chapters. It's an easy book to pick up, read a little, and if you're short on time you can read a section quickly and put it down to resume at a different time.
