

## [THE ONLY ASTROLOGY BOOK YOU NEED](#)

## RELATED BOOK :

### **The Only Astrology Book You'll Ever Need Amazon de**

The title really is false advertising: You can't even do the kind of astrology that's described in the book with just this book, as you need an ephemeris--a chart that tells you what degree your planets are in--to figure out the aspects between planets, and this is a central part of astrology.

### **The Only Astrology Book You'll Ever Need Joanna Martine**

Way too basic to be "The only Astrology Book" you'll ever need. I have several other books that offer much more information and are still an easy read for a novice. Just disappointed there was so much bad generalizing, way too much importance on Sun sign, and breezed over pretty important stuff, if it mentions it at all.
