Amazon com Customer reviews The Resisters Book 1

THE RESISTERS, a bit of a funky title, sounds like these radio parts you can purchase at Radio Shack or maybe the name for some underground British punk rock band. But what it is, is Eric Nylund's launching off point for a new YA sci-fi series. And it reads pretty good, actually. Good hook. Likable lead character. And I dig the giant mutated tech-bugs employed by both sides in their waging of a covert war.
