Ripper by Stefan Petrucha is a historical fiction book about the son of Jack the Ripper. The whole story about the ripper is true but we would not know about his son because we do not know who the ripper actually is. This also has some historical facts in it. That is why I would call it historical fiction.

The book was marketed as a serious study, but it contains obvious factual errors and the documents it supposedly uses as references have never been found. It inspired other works such as the theatre play Murder Most Foul and the film Jack the Ripper.
