The book concentrates solely on this and closes exactly as war is declared between all the parties. The book is well written and enjoyable to read despite its length with the known final declaration of war giving the book a clear end point and structure and adding a slightly "whodunit" type nature to the narrative.

The Sleepwalkers Koestler book Wikipedia

The Sleepwalkers: A History of Man's Changing Vision of the Universe is a 1959 book by Arthur Koestler. It traces the history of Western cosmology from ancient Mesopotamia to Isaac Newton. He suggests that discoveries in science arise through a process akin to sleepwalking. Not that they arise by chance, but rather that scientists are neither fully aware of what guides their research, nor are they fully aware of the implications of what they discover.
