

## [THE SORCERY CODE](#)

## RELATED BOOK :

### **The Sorcery Code The Sorcery Code 1 by Dima Zales**

The Sorcery Code: Volume 1 implants the reader/listener in the middle of a magical world that seems to have already existed for many years. The characters are well rounded and fully developed, the magical world is complex and highly interesting, and the story line seems refreshing and well paced. The newly created Gala is a perfect character through which readers/listeners can discover the fantastic, unique world of Sorcery Code just in time for the exhilarating action to come.

### **The Sorcery Code The Sorcery Code Volume 1 English**

I found The Sorcery Code to be disappointing. It begins with a lot of potential to create a really unique numerical magic system (not unlike Brandon Sanderson's The Rithmatist). Unfortunately, this potential remains unfulfilled. The effects generated by magic are uninteresting, and the explanation of the the underlying magic is equally boring if present at all.

**The Sorcery Code The Sorcery Code Volume 1 eBook von**

The Sorcery Code The best thing I like about this story is how Blaise wants to make magic more available for the common people and break the barrier between common people and sorcerers. Also the flow of story pulls you in and keeps you interested. I truly enjoyed Reading to this book which captures the imagination of the reader throughout.

**Review of The Sorcery Code By Dima Zales Best Fantasy**

The Sorcery Code, at least, is a level above the usual raft of small print/self published works by actually having a cohesive plot, characters, and setting. However, there are still a number of flaws with this novel.
