Square Foot Gardening A New Way to Garden in Less Space

When he created the "square foot gardening" method, Mel Bartholomew, a retired engineer and efficiency expert, found the solution to the frustrations of most gardeners. His revolutionary system is simple: it's an ingenious planting method based on using square foot blocks of garden space instead of rows. Gardeners build up, not down, so there's no digging and no tilling after the first year. And the method requires less thinning, less weeding, and less watering.

Square foot gardening Wikipedia

Square Foot Gardening is the practice of dividing the growing area into small square sections. The aim is to assist the planning and creating of a small but intensively planted vegetable garden. It results in a simple and orderly gardening system, from which it draws much of its appeal. Mel Bartholomew coined the term "square foot gardening" in his 1981 book of the same name.
