

## [THE VUESCAN BIBLE](#)

## RELATED BOOK :

### **The VueScan Bible Everything You Need to Know for Perfect**

The VueScan Bible is just what I needed. In addition to its thorough discussion of how to scan prints and film, the book refers specifically to the Nikon Coolscan film scanners and to the Canoscan, so if you own either one, you'll get an extra bit of help. The book is about as clear as a software manual can be, which is to say that there are a few times when you have to re-read something in order to get it -- or maybe even re-re-read it, although that's rare.
