The Wealth of Nations Books 1 3 Amazon de Adam Smith

I bought the version of The Wealth of Nations by Bantam Classics, which was a mistake. About 50 pages of the book were apparently bound when not placed correctly. Which resulted in these pages being cut way to high, leading to the loss of plenty of text. The quality is very low and the price is a total scam. Also, the book was damaged at delivery. I recommend the investment of a few more Euros for a proper book.
