Machine Quilting quiltingboard com

When machine quilting, it's extra work to bury threads if you start and stop in the middle. It's enough if you start at one edge and work towards another edge. That way, if you run out of bobbin thread, you have only one thread per bobbin to bury. Starting in a corner sounds good. You could also start at the middle of an edge and work towards the other edge. The biggest thing to avoid is
