### **Travels by Michael Crichton Goodreads**

Travels is the story of Crichton's life from Harvard medical school to internationally acclaimed author of Sphere and Jurassic Park. But what makes it more than a jerk-off self-important autobiography is how Crichton talks openly and honestly about I think I first saw the cover of this book when I was about 13 and the mystery of it grabbed me even then.

### **Travels by Michael Crichton Ivan Obolensky**

When one thinks of Michael Crichton one thinks of Jurassic Park, The Andromeda Strain, Rising Sun, or maybe Sphere. He created them all and many other bestsellers besides, but few know that he scripted and directed the original Westworld , starring Yul Brynner, decades before the HBO hit series continued its themes.

### **Travels Vintage Departures Michael Crichton**

Travels falls well within the 'okay' scale - not fabulous but certainly far from dreadful. It's obvious that his literary muse benefited mightily from his rich life experiences and I for one consider Michael Crichton to be one of the absolute best authors of our time.
