

[VEGAN THE NEW ETHICS OF EATING](#)

RELATED BOOK :

Vegan The New Ethics of Eating by Erik Marcus

Although not a vegan, yet, reading this book has helped me to continue with my commitment. It's a sad commentary on humans that so many think they are above the other species that share this planet. If just one person would read this book and make some small changes, you don't have to become Vegan, it would save many lives.

Amazon de Kundenrezensionen Vegan the New ethics of Eating

This is a competent, though hardly invigorating, book about veganism. It is more of a People Magazine look at it, consisting as it does of brief chapters that are vaguely interesting but much more hero-worship of vegan "stars" than true insight into the issues.

Vegan The New Ethics of Eating ibiblio

While researching the hog farming industry for The Prism's April Earth Day issue, it really hit me that our society's consumption habits are as much to blame for present environmental threats as the various livestock industries' transgressions.
