### **Veronica Mars Here for the Miniseries But More Books Please**

Veronica Mars is a fantastically brought to life private detective who has grown tremendously since we first met her in high school and has a lifetime left of growing. I want to watch that. We all deserve to watch that. And it's possible with the novel series. The reason the books were so satisfying to me was that each read like a season of the show, and even though it wasn't written in first person it was very much in Veronica's voice.
