Vodka Chocolate Milkshake Martini The Dark Chocolate

We want vodka, but we also want a milkshake. How do we rectify this conundrum? The answer is ice. Ice lowers the temperature of the milkshake, which returns it to a milkshake consistency. For this approach to work, we have to also make sure the rest of the ingredients are in their proper ratios. I would not recommend altering this recipe to a great extent. Adding more alcohol could have major implications for the consistency of this drink.
