What Einstein Told His Cook Kitchen Science Explained

What Einstein told his cook was a fun and interesting read that was written to educate people about the chemistry of cooking. Wolke never forgets to tie all of his cooking facts back to chemistry and he never forgets to leave his writing light, fun, and easy to read so that the average person can enjoy it. Overall the book was a pretty decent read and I would recommend it to most people.

What Einstein Told His Cook Science Meets FoodScience

What Einstein Told His Cook was sandwiched between the bottom of the pan and the blue flame emerging from the burner. My attention was immediately diverted and I picked up my new treasure and brought it to a table to further explore what the author had to say. And what an author he is! Robert L. Wolke, chemistry professor and
