How to Make Essential Oils with Pictures wikiHow

You need to do some research to figure out when to harvest the plants you want to distill. For example, lavender should be harvested when about half the flowers on the stem have withered. Rosemary, on the other hand, should be harvested when the plants are in full bloom. 2. Harvest your plants correctly. Just as you need to research when to harvest plants for best essential oil production, you

How Essential Oils Can Cause You Serious Harm HealthPrep

A few essential oils can cause burning when exposed to ultra-violet (UV) lighting. So, before laying out in the sun at the beach or heading to a tanning salon, it is important to ensure that you wait at least 12 hours once a photosensitizing oil has been applied to the skin. Depending on the oil and length of exposure to the sun, skin reactions from certain oils can range from mild discoloration to severe swelling and blistering burns.
